# RYAN MILLER

Ryan Michael Henry Miller is 6 years old. He was born August 31st, 2002. He weighed 3lbs. 11oz. And was 11 inches long at birth. He is a surviving twin. He has sacral-a-genes which means he is missing his bottom three vertebrae and part of his sacrum bone in which he is not able to walk. He does not let his handicap slow him down. He is very independent. He has a wheelchair he uses in school, but he mainly gets around on his hands. He has been a patient at Riley Hospital since birth. He has one kidney and a small bladder which they want to do surgery to make him a bigger bladder, in which I want to put off until he is a little older. It is a long and risky surgery and I feel he is too young for the responsibility. In spite of all his problems he is a very happy little boy and everybody is very proud of him!
