

Little "Desi" Benefit Ride

All Cyclists Welcome

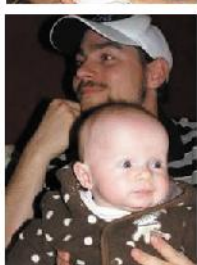

About "Desi"

Desiree Kepler was born on August 10th, 2007. She may look like a healthy baby but sadly, she has multi medical issues. She was born premature. She was born with three holes in her heart and she can not currently eat much by mouth. She is fed through a g-tube. She also has only one kidney and cogital scoliosis. She will have the first of several back surgeries in September. Even though the parents do have insurance they still have deductibles and a lot of bills that are not covered. They go back and forth to all of Desi's medical appointments several times a week. Desi's family, friends and extended families are rallying to her parents' side in support. You can help too. Please ride with us to help this little girl.

*Raffles,
Food & More!*

Private donations may be made at
US Bank, Eaton Ohio to a trust set
up for Desiree Kepler and her Family

SUNDAY, JUNE 22, 2008
