

TREVOR HALL

Benefit Ride

Sunday, June 24, 2007

Trevor is 8 years old and suffers an 80 degree curvature of the spine and underwent major surgery on March 16th. Doctors said that without the surgery, Trevor would only live approximately 3-4 years. The family is doing everything they can to help Trevor but is faced with months of follow-up visits and significantly large medical bills. They need your help! On Sunday, June 24th, we will ride to help raise money for the family.

If you can't make the ride, here are a couple of other ways that you can help Trevor and his family.

Donations to Eaton National Bank in Trevor's name.

or

Go to www.new-paris.com and donate through Pay-Pall.
