DON'T MISS IT!!!!

On September 20th, 2007 Nevin Jamason's parents were told their son has Acute Myelogenous Leukemia. AML typically develops in adults 65 years or older but can occur at any age. Nevin, only 3 yrs old, began chemotherapy treatments right away. Intensive chemotherapy is needed to achieve complete remission and this is his doctors goal. Although he is in remission now, the doctors continue to give him strong chemo treatments since there may be leukemia cells that are too small to be seen in his blood or marrow. Each time he has a treatment he spends 4-6 wks at Children's Medical Center. His mother stays with him alleviating the option of having a job to help pay the expenses. Although they do have Medicaid of Ohio there are still expenses incurred and with 7 sisters and 2 brothers, Dad's job as a painter is just not enough to make ends meet. Nevin loves Spiderman and wears his outfit everywhere he goes because Spiderman fights bad guys the way Nevin is fighting leukemia!  
Don't forget this smile....come join us for the fun! If you can't, you can still help by sending checks payable to Nevin Jamason to: Bikers for Forgotten Smiles, P.O. Box 723, Miamisburg, OH 45343-0723. For information call (937)866-8649.
