

Todd Worl

Memorial Ride

Todd & Missy had begun their wonderful life together. They worked together to try to finish their dream home in Cambridge City where they looked forward to raising their family. Todd & Missy had found the happiness they had always wanted, only to have it snatched away by cancer. In September, Todd learned that his cancer, which went into remission 6 years ago, had returned, but he was determined to fight it again. In December, Todd had a bone marrow transplant that was unsuccessful. Unfortunately, it spread into other parts of his body. Our initial plan was to have Todd ride his Harley with us in his poker run, but tragically, Todd died on the morning of March 7th. The family that he left behind is devastated. Please help us help the family. We'll ride in Todd's honor on Sunday, April 2, 2006.

Marine Corps League
